EXPERIENCE

INFORMATION TECHNOLOGY FUNDAMENTALS Project I

UX/UI Designer / Phototype / Empathize

Brainstorm about user problems in **the problem of typing chat** with work from the start. Have to understand the user and make a Journey map and user persona. Make a phototype to solve this problem and let the user use it to receive feedback.

UX/UI Project I

UX/UI Designer / Phototype / Empathize

It's a group work to design a phototype of an app that uses **makeup for women**. By interviewing the needs of our Target users, what kind of needs are there? to be used in making a phototype

Foundations of User Experience (UX) Design

UX/UI Designer / Phototype / Empathize
